Objectives

To obtain a PHP developer position within a company where I will be able to put my existing skills to good use, and also to be in a position where I can learn as much as possible from my peers to improve my skills for personal benefit and for the benefit of my employer.

Education

► Certified MySQL 5.0 Developer (CMDEV) - Sep 2008

The Certified MySQL 5.0 Developer (CMDEV) certification is a specialized qualification for users of the MySQL Relational Database Management System for back-end processing and data storage. Regulated by MySQL, a division of Sun Microsystems the CMDEV ensures, among other things, that the holder has reached a professional standard to efficiently create, utilize and maintain MySQL databases and to effectively integrate them with other applications. The CMDEV also ensures a high knowledge of Standard ANSI SQL along with MySQL specific additions.

► Cert Web Apps(Open) – Mar 2008 (CertHE)

Undergraduate Certificate (CertHE) In Web Applications Development, The Open University. The Cert Web Apps(Open) is a 2 year academic course taught by the

Open University which consists of six modules covering:

- Web basics: design, development and management
- The client-side of application development
- The server-side of application development
- Databases within website design
- Open source development tools
- Web server management, performance and tuning

▶ **Zend Certified Engineer (PHP5) – Nov 2007**

The Zend PHP 5 Certification is designed to certify proficiency in the PHP programming language. Produced by the developers of the language, Zend's Certified Engineer status ensures the holders proficiency in providing professional enterprise level solutions to complex technical problems using the PHP programming language.

Further details available on request.

Experience

As I am newly qualified and wish to now enter employment within this industry, my experience consists of mostly freelance projects and projects sourced from sites such as www.rentacoder.com. I have also developed some web applications solely to display my capabilities. The links below represent some of the work I have undertaken.
